CITY OF PEWAUKEE — Students at Christian Education Leadership Academy (CELA), W262-N4685 Ryan St., recently completed their Project Linus blankets during class. Project Linus provides handmade blankets to children 0-18 in the United States who are seriously ill, traumatized or otherwise in needs.

The students worked in their chapel families to complete the blankets, prayed while they tied the blankets and made cards for the children. All of the blankets will go to the patients at Children's Hospital through Project Linus.

Eighth-grade CELA student Adeline Davis shows 3K chapel buddy Madison Bendall how to tie a knot.
